

**NOTICE OF EMERGENCY CHANGES  
TO THE 2014 UTAH FISHING PROCLAMATION  
OF THE WILDLIFE BOARD FOR THE TAKING  
OF FISH AND CRAYFISH**

I, Gregory Sheehan, by authority granted in Section 23-14-8 of the Wildlife Resources code of Utah declare an emergency amendment to the 2014 Utah Fishing Guidebook. The following has been amended:

**Mill Creek Canyon (From Fee Booth Station to Headwaters, Salt Lake County):**

- INCREASE the daily bag and possession limit from four (4) trout to eight (8) trout.

This change is effective July 3, 2014 and will remain in effect until January 1, 2015.

Native Bonneville cutthroat trout (BCT) are being restored into Mill Creek Canyon. Beginning in September 2014, in preparation to reintroduce BCT into Mill Creek, existing fish in the upper and middle portions of the canyon will be removed from Mill Creek Dam near Porter Fork area upstream to the headwaters. Limits are being temporarily liberalized to allow anglers to harvest fish that would otherwise be lost. Please keep in mind that some private property exists in the lower and middle sections of Mill Creek Canyon. Please respect private property rights within the canyon.
